

**A35 BREBEMI**

With Us, you can redefine the rules  
of Infrastructure:  
from Impact to Opportunity for  
Nature

We Monitored  
the **Entire A35 Brebemi Highway** through  
Remote Sensing for a total of **479.06 hectares**

# Installing, Sowing and Planting...

1  
**Spectrum**

2  
**Birdy**

5  
**Hive-Tech**

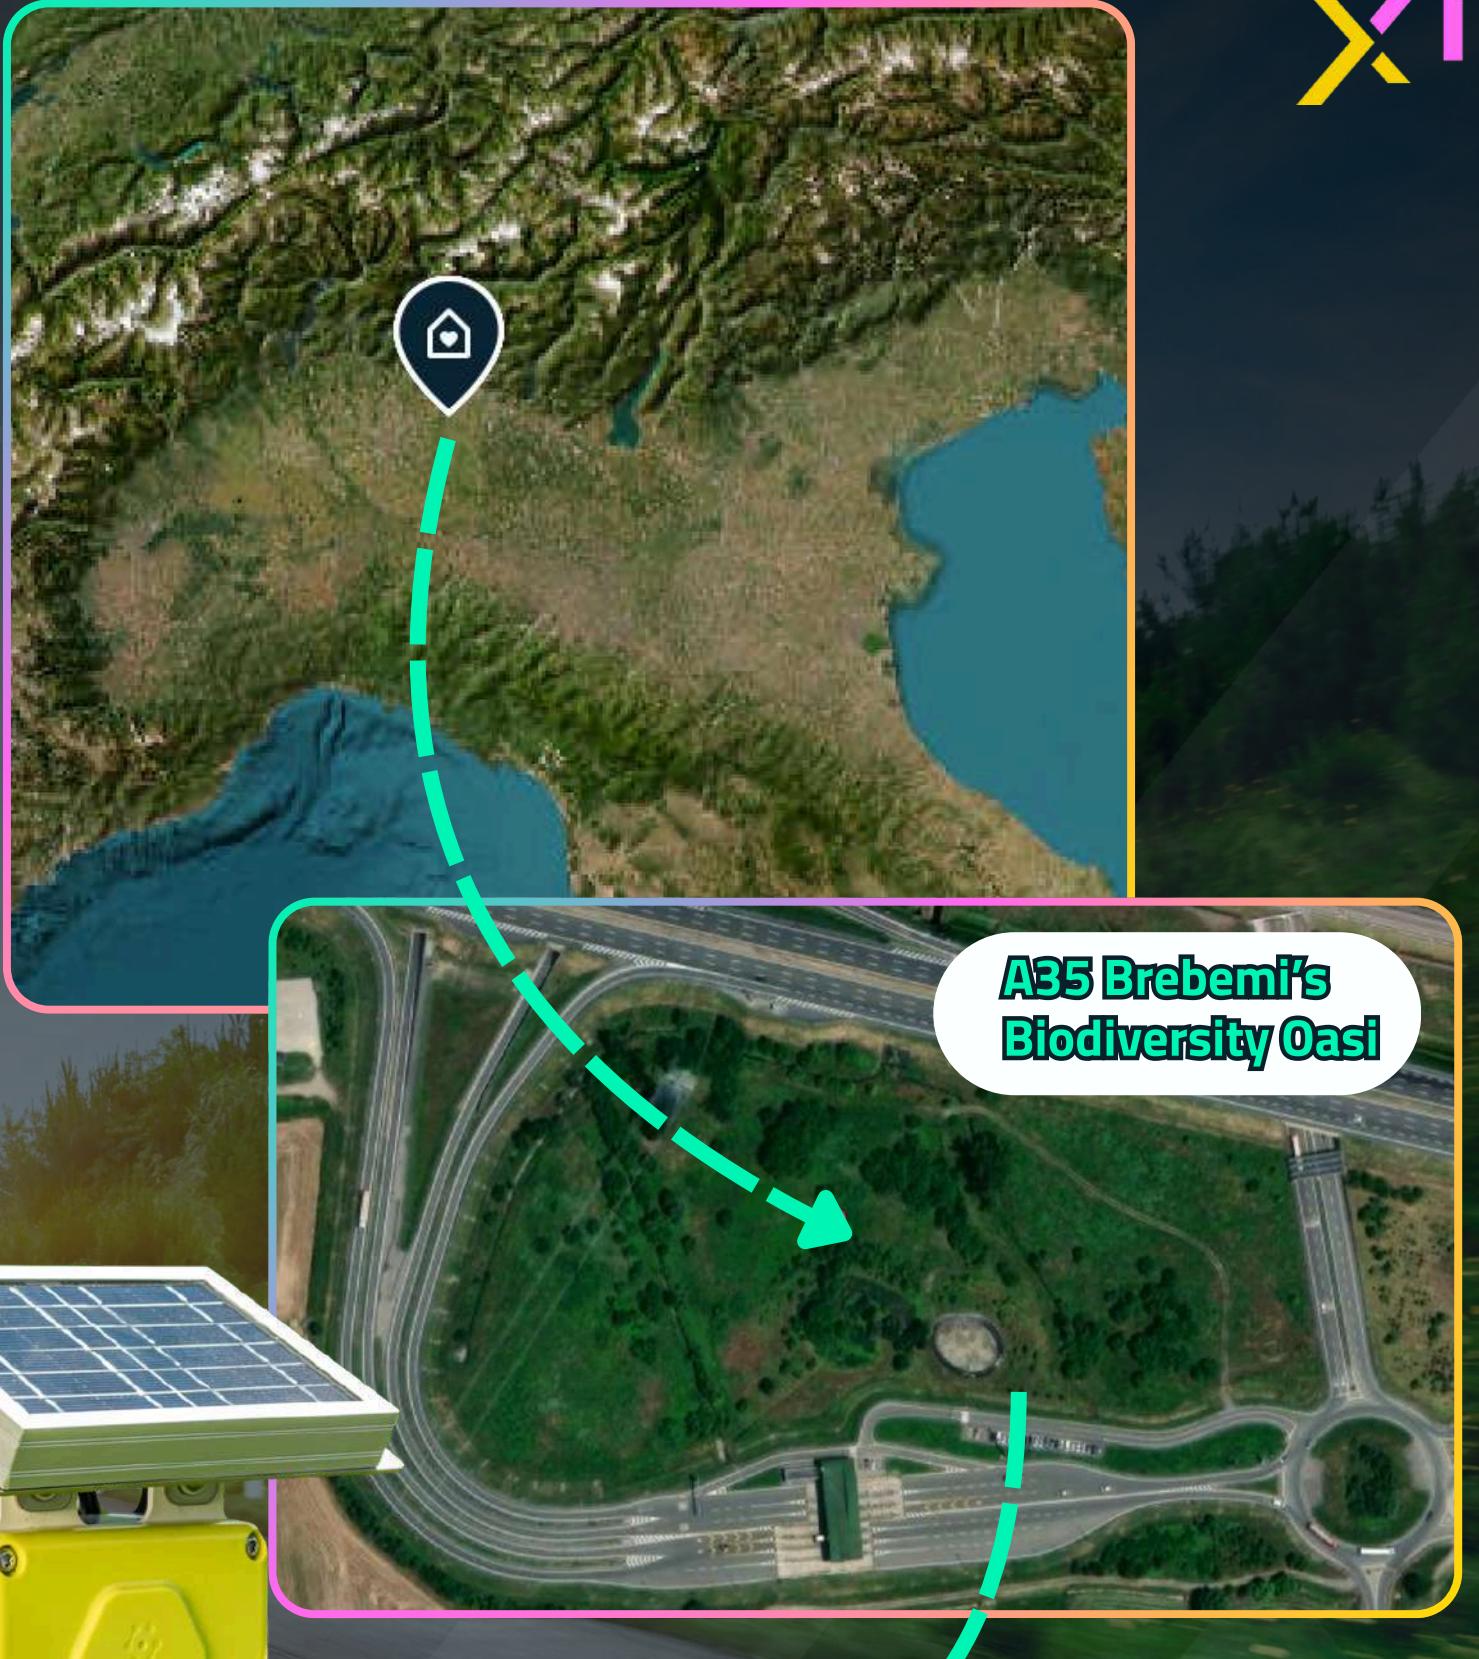

**1 hectare of nectar-rich meadow**

including  
**105 trees**

A man with a beard and a colorful, striped beanie is standing in a forest. He is wearing a yellow high-visibility vest over a plaid shirt. He is holding a green rectangular device with a screen and several buttons, which appears to be an IoT sensor. The device is attached to a tree trunk. The background is filled with the trunks of many trees, some with bare branches and others with sparse, yellowish-green leaves.

Biodiversity Monitoring  
was Performed using  
IoT Sensors

Brebemi's  
**Biodiversity Oasis**  
is located in one  
of the three  
phytodepuration  
areas along **A35**

# Our Biodiversity Oasis

Here, we Monitored  
1.200.000 Pollinators

The program *School of Biodiversity* increased awareness on the importance of Biodiversity for next generations
